

Y27 Series Four-Column Hydraulic Press Machine

Computer optimized design, 3-beam, 4-column structure, simple but with high performance price ratio.

PRODUCT DETAILS

Cylinder

- Polished and chromed with high rigidity treatment.

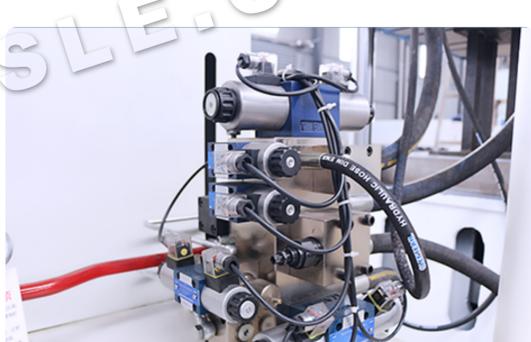

Main Motor

- Siemens brand from Germany.

Pressure Gauge

- Detect main cylinder and ejection cylinder pressure, adjust system hydraulic pressure.

Hydraulic Valve

- Cartridge valve integral unit equipped for hydraulic control system, reliable, durable and less hydraulic shock, with shorter connection pipeline and fewer releases points.

Hydraulic Die Cushion

- This is specially used for deep drawing function

Limit Switch

- Adjust the ram working distance

Hydraulic Oil Tank

- Clean the oil tank regularly easily thanks to the dismantlable design

Electric Parts

- Schneider brand from France

OPTIONAL CONFIGURATION

Light Curtain

Knockout Cylinder

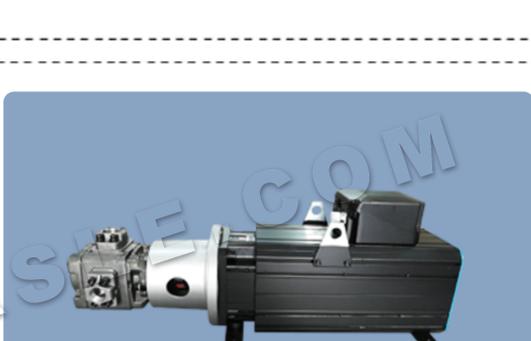

Shuttle Table

Touch Screen

Water cooler

Servo pump control system
